

A partner

Oh, wait...

Maybe it's not "partner", maybe another title would be in order; but the result is the same.

We would get up in the morning, go through one's morning routine and then we would go and tackle the day together.

The work for the day would be the things required for the business we own or are.

At the end of the day, we would return to our home (if work requires us to leave) and enter the evening routine.

As the night starts we can enjoy our nocturnal activities; albeit the night sky or taking a moon light walk.

Only one problem: You are elsewhere.

One wonders, how does one make this fantastic dream happen.?

Ideas, thoughts, comments?
