DD/GL

In a net shell its core is a kinky ageplay/role-play between two consenting adults.

Specially with the acronym for **daddy dom/little girl**, it's all about a sexual relationship where the dominant male is the daddy figure and a woman plays the role of a young girl. Mixed with a little *spice*, and we have the makings of something special.

Note to self: Who's birthday (is the post date)? See the connection? LMFAO !!!
