Category: Chickens

written by admin | May 1, 2020

It started in April of 2020, and by May there were 7. First 3 and later 4 more.

But it was not long before 'Dick' (one of the 4) had to go. He was sent to a place where his skills would be of us.

Earlier in 2021 two of the 4 died. One unexpectedly and the other, well I knew the day before. Don't know why. No other issues or problems either noticed with the 2, or any of the others.
